

ROUND 2: TASK GUIDELINES

Timeline: T-10

Operations ensure the smooth execution of Manfest–Varchasva by managing on-ground logistics, including administrative activities, infrastructure, inventory, and vendor relationships. The team runs the show across verticals, pro-shows, competitions, and LeadEx sessions, ensuring every event is delivered flawlessly.

The IIM Lucknow campus serves as the stage for Manfest–Varchasva, and its successful execution depends on how effectively different spaces are envisioned and utilized. The Operations team plays a central role in planning this setup, ensuring each venue is designed to deliver a seamless experience for participants, partners, and audiences alike.

Task:

Scout the campus and prepare a blueprint of how Manfest–Varchasva will be set up. Identify and allocate locations for key arenas such as food courts, competition venues, the concert arena, and other flagship events. Additionally, assess unused spaces on campus and propose potential new events that could be introduced.

Final Deliverables:

1. **Campus Blueprint:** A mapped layout of the IIM Lucknow campus with designated spaces for food, competitions, concerts, and existing events.
2. **Venue Setup Details:** A detailed description of how each location will be arranged, including infrastructure, logistics, and flow of people.
3. **New Event Suggestions:** Identify unused or underutilized spaces and recommend innovative events/activities that can be hosted there.

Suggestion:

You don't need to be an artist—present your ideas in whatever form feels natural to you. What we're looking for is your thought process, creativity, and practical approach to planning.
